

NEW BABY PFD FROM SALUS MARINE WEAR

Two new products from Salus that are attracting a lot of attention are their new Baby vest, called the Bijoux, which is very unique to the Canadian Boating market. The designers at Salus had to really step outside the confines of the standards to develop this important new product. It turns a baby to the face up position very quickly; the

most important thing in saving an infant's life. It's comfortable and fits babies from nine to 25 lbs.

This very important new Baby vest has just won the CASBA Marine Industry Award. Most importantly, it is a major advance in protecting very young children. But it is also a great benefit that now there is no need for new parents to shy away from boating with the Bijoux on the market. www.CSBC.ca

Salus Marine Wear's other new product is the Angler Vest for fishermen. www.salusmarine.com

PROTECTS ENGINES FROM THE ENEMY WITHIN

Your engine's greatest enemy this winter may be the fuel inside it. STA-BIL Fuel Stabilizer can protect your engine by keeping good gas from going bad.

STA-BIL is an additive designed to protect fresh fuel from oxidation during storage or infrequent equipment use. When fuel reacts with oxygen in the air, it can quickly form gum and varnish deposits. In less than 60 days, these deposits can clog fuel lines, injectors and fuel filters. The results are startup problems, sluggish performance and even reduced engine life. STA-BIL keeps fresh fuel fresh for up to 12 months and preventing gum and varnish build-up that can choke

fuel lines – especially during months of storage.

STA-BIL also acts as a water remover to prevent corrosion and rust caused by accumulated condensation in the fuel system. Its multi-talented formula even includes a fuel system detergent to keep intake valves and fuel injectors clean. Visit www.goldeagle.com

JBL AUDIO TAKES THE SHOCK OUT OF ROCK

JBL Marine stereos come equipped with Electronic Shock Protection (ESP). This standard feature in car stereos is relatively new in the marine industry. ESP works
